

AVNISH CHANDRAKANT BHOSALE

B.Tech Computer Science & Engineering (Final Year)
Kolhapur, Maharashtra, India | github.com/avnish1512

EDUCATION

B.Tech – Computer Science & Engineering <i>Sanjay Ghodawat University, Kolhapur, Maharashtra</i>	2023 – Present
Diploma in Computer Engineering <i>D.Y. Patil College of Engineering & Technology (DYPCET), Kolhapur</i>	2020 – 2023
SSC (10th Standard) <i>S.M. Lohiya High School & Jr. College, Kolhapur</i>	Passed: 2020

TECHNICAL SKILLS

Languages:	Java Python JavaScript C C++ HTML CSS SQL
Frameworks:	React.js Android Development Supabase
Databases:	PostgreSQL Oracle Supabase
Cloud / BI:	Amazon AWS Microsoft Azure Google Cloud Platform Power BI
AI / Data:	Artificial Intelligence Machine Learning Data Analytics
Tools / IDEs:	VS Code Android Studio Antigravity Figma Git GitHub GitLab Jenkins

INTERNSHIP EXPERIENCE

Intern – Amazon & Microsoft Cloud Services <i>Domain IT Services (Domain Computer Education), Kolhapur</i>	Jul 2022 – Aug 2022
- Completed industrial training focused on Amazon Web Services (AWS) and Microsoft Azure cloud platforms. - Gained hands-on experience in cloud infrastructure, compute services, storage, and deployment concepts. - Certified by Domain Computer Education Training & Placement Centre (Cert. ID: DOITC\173\2022).	
Intern – Artificial Intelligence & Machine Learning <i>Securenest Cybersecurity Institution</i>	Jan 2026 – Apr 2026
- Completed a 4-month internship covering AI/ML fundamentals within a cybersecurity context. - Worked on AI-based security use-cases including threat detection and anomaly identification. - Awarded Certificate of Appreciation (ID: UDYAM-KR-04-0114056) by CEO & Founder Swayam Shinde.	

PROJECTS

1. College Placement Drive App	Android / Java
- Developed a full-featured mobile application to manage college placement drives, student registrations, and company schedules. - Implemented real-time notifications, admin dashboard, and student profile management.	
2. Tank Tracking Management System	Web – JavaScript / React.js

- Built a responsive web application for a company to monitor and manage tank inventory and logistics in real time.
- Integrated PostgreSQL database with REST APIs for live data tracking and reporting.

3. Mahalaxumi Industrial Company Website

Web – HTML / CSS / JavaScript

- Designed and developed a professional corporate website for an industrial company, showcasing products and services.
- Implemented responsive UI with Figma prototypes translated into production-ready code.

4. Doctor AI – Healthcare Chatbot

AI / Python / React.js

- Created an AI-powered healthcare chatbot capable of answering patient queries and providing preliminary symptom guidance.
- Leveraged NLP models integrated with a React.js frontend and Python backend.

5. IoT Project – Precision Farming

IoT / Python / Cloud

- Developed an IoT-based smart farming system for real-time soil moisture, temperature, and humidity monitoring.
- Connected sensors to cloud dashboard using AWS/Azure for data visualization and automated alerts.
